Factory Reset	https://www.mymorningespresso.com/how-to-reset-nespresso-machine/#6-evoluo

Factory Reset Instructions

1. Open the machine head and let the used capsule be ejected.
2. Close the head. Leave the lever in “UNLOCKED” position.
3. Push the button 5 times within 3 seconds. The button will blink slowly 5 times to confirm reset is done.

Descaling

Descaling Alert = The button’s light alternatively blinking 3 times and then steady on.

- Descaling needed: Machine can be operated when alert appears only a few times after this alert before descaling becomes necessary.
- Refer to Descaling Guide on how to perform the descaling process.

First Time Use Procedure

1. Rinse and clean the water tank before filling it only with fresh drinking water. Put the water tank in place.
2. Ensure the capsule container and the cup support (if necessary for the selected cup size) are in place. For your safety, operate the machine only with cup and capsule container in position.

3. Plug the machine into the outlet.
4. Turn the machine “ON” by pushing the button. The button will gradually illuminate as the machine heats up as the machine heats up in approximately 15 seconds.
5. Steady light indicates the machine is ready.
6. Place a cup at least 0.5 L under the coffee outlet.
7. Close the machine if open and lock the machine by turning the lever left to the lock symbol on the machine head.
8. Press the button 3 times within 2 seconds to start cleaning and let the cleaning procedure complete automatically. It will take less than 2 minutes before a flow comes out. The procedure consists of 3 cycles of pumping water in, internal cleaning and water flowing form the outlet to complete.
9. This operation may take up to 5 minutes. The procedure can be stopped at any time by pushing the button. The button will go to steady light. In case you want to resume the cleaning process, push the button again. To brew a coffee, insert a capsule, then close, lock the machine by turning the lever left and push the button.

Notes

- This can be considered a mid-tier model with a long product lifetime.
- This is also a model that is considered the most reliable in terms of brewing several consequent cups of coffee. This claim is supported by the fact this very same model is to brew samples in the Metrotown branch’s tasting bar.
