Taste Information

This coffee displays sweet, biscuity, fruity jam, and cereal notes, with a mild, low bitterness.

The Story

Grown under shade-trees, these treasured coffee varieties find their ideal terroir nestled beside active volcanoes, delivering a mild cup with sweet biscuit and fruity jam notes. The "red honey process" involves carefully adjusting the amount of sweet pulp left on the drying cherry which complements this Arabica blend's washed processed beans with sweet aromatics.

This is an all-Arabica blend sourced from the Apaneca Ilamatepec Mountain Range in El Salvador. A selection of red honey processed beans complements the washed Arabica beans with distinctive sweetness.

Overall light roast - The red honey is roasted separately from the rest to make the most of the unique processing method. The other portion washed is slightly longer and darker.
